- children's clothing with drawstring ties (it is a strangulation hazard to have any drawstring at the neck area, or drawstrings over 3 inch in length at the waist area)
- hairdryers without protection against electrocution. This protection is provided by a large rectangular-shaped safety plug at the end of the cord.
- halogen torchiere floor lamps without wire safety guards to protect against fire hazard.

We maintain a log of all items recalled by the CPSC and make it a priority to maintain a selling floor free of any such items. Should you have any questions, we encourage you to check on the government website at www.cpsc.gov.
